Task 2 - Interactive Dashboard

Internship at Nexus AI Digital — Data Science & Machine Learning
Author: Syed Huzaifa Bin Khamis

Objective:
The goal of this task was to present **EDA insights in a clean, interactive dashboard** so that non-technical stakeholders can quickly understand customer behavior.

Key Features:
- Monthly Sales Trend (line chart)
- Top 10 Products by Sales (bar chart)
- Top Countries by Sales(bar chart)
- Customer Spend Distribution (histogram)
- Country Filter (dropdown to focus on specific countries)

How to Run:
1. Install dependencies:
```bash
pip install dash plotly pandas
```
